Swipe To Win - Wins Big

Picture this... you push out a special promotion offering guests a chance to win a prize just for stopping by. You pick the prize, offer, or discount. It's your choice. One in five can be a winner - one in ten... one in a hundred... or everyone can win something. You can also decide on just one winner for a grand prize like our case study below.

Thank you,

I just wanted to thank you again. This is a beautiful grill. My dad has wanted one like this for a very long time. He just retired so now he has a new toy to spend his time with.

I'll admit it was hard to part with it, however we were there for fathers day and we made his day when we told him it was his.

I will be sure to continue to let everyone know what a wonderful business you have.

Thank you so much for suggesting the "Swipe to Win" Contest. **It was a huge success!** Each store experienced huge comp sales. **The Imperial location was up almost 30%.** And truly more than that because we were open for breakfast last year. Over 40% when considering breakfast (open 5 less hours this year).

Everyone was very excited and we have already started thinking about our next "Swipe to Win". The lady who won is going to tell every person she runs into, she was so excited.

We are double digit comp sales in our first full year with you. Repeat Returns has been a huge success for our group and I look forward to working more with you and team.

Thanks for all you do,
